A scenic view of a waterfront. In the foreground, a wooden deck is covered with a large bush of white flowers. To the left, a dark brown house with a gabled roof is partially visible, surrounded by lush green trees. In the middle ground, a white house with green shutters sits on the water's edge. A blue boat is docked on the right. The water is calm and reflects the sky. The background shows a distant shoreline with more trees and a clear blue sky.

*An Assessment Manual  
for New York  
Municipalities***

Prepared by:  
Genesee/Finger Lakes Regional Planning Council

This manual was prepared as part of New York's Great Lakes Coastal Watershed Restoration Program with funding appropriated by Congress, and provided through the Coastal Zone Management Act of 1972, as amended, administered by the Office of Ocean and Coastal Resource Management, National Oceanic and Atmospheric Administration in conjunction with the New York State Coastal Management Program. The project was overseen by staff of the New York State Department of State, Division of Coastal Resources and Waterfront Revitalization.
